

# 交通管理支队海棠大队 食堂设计方案

# 设计说明

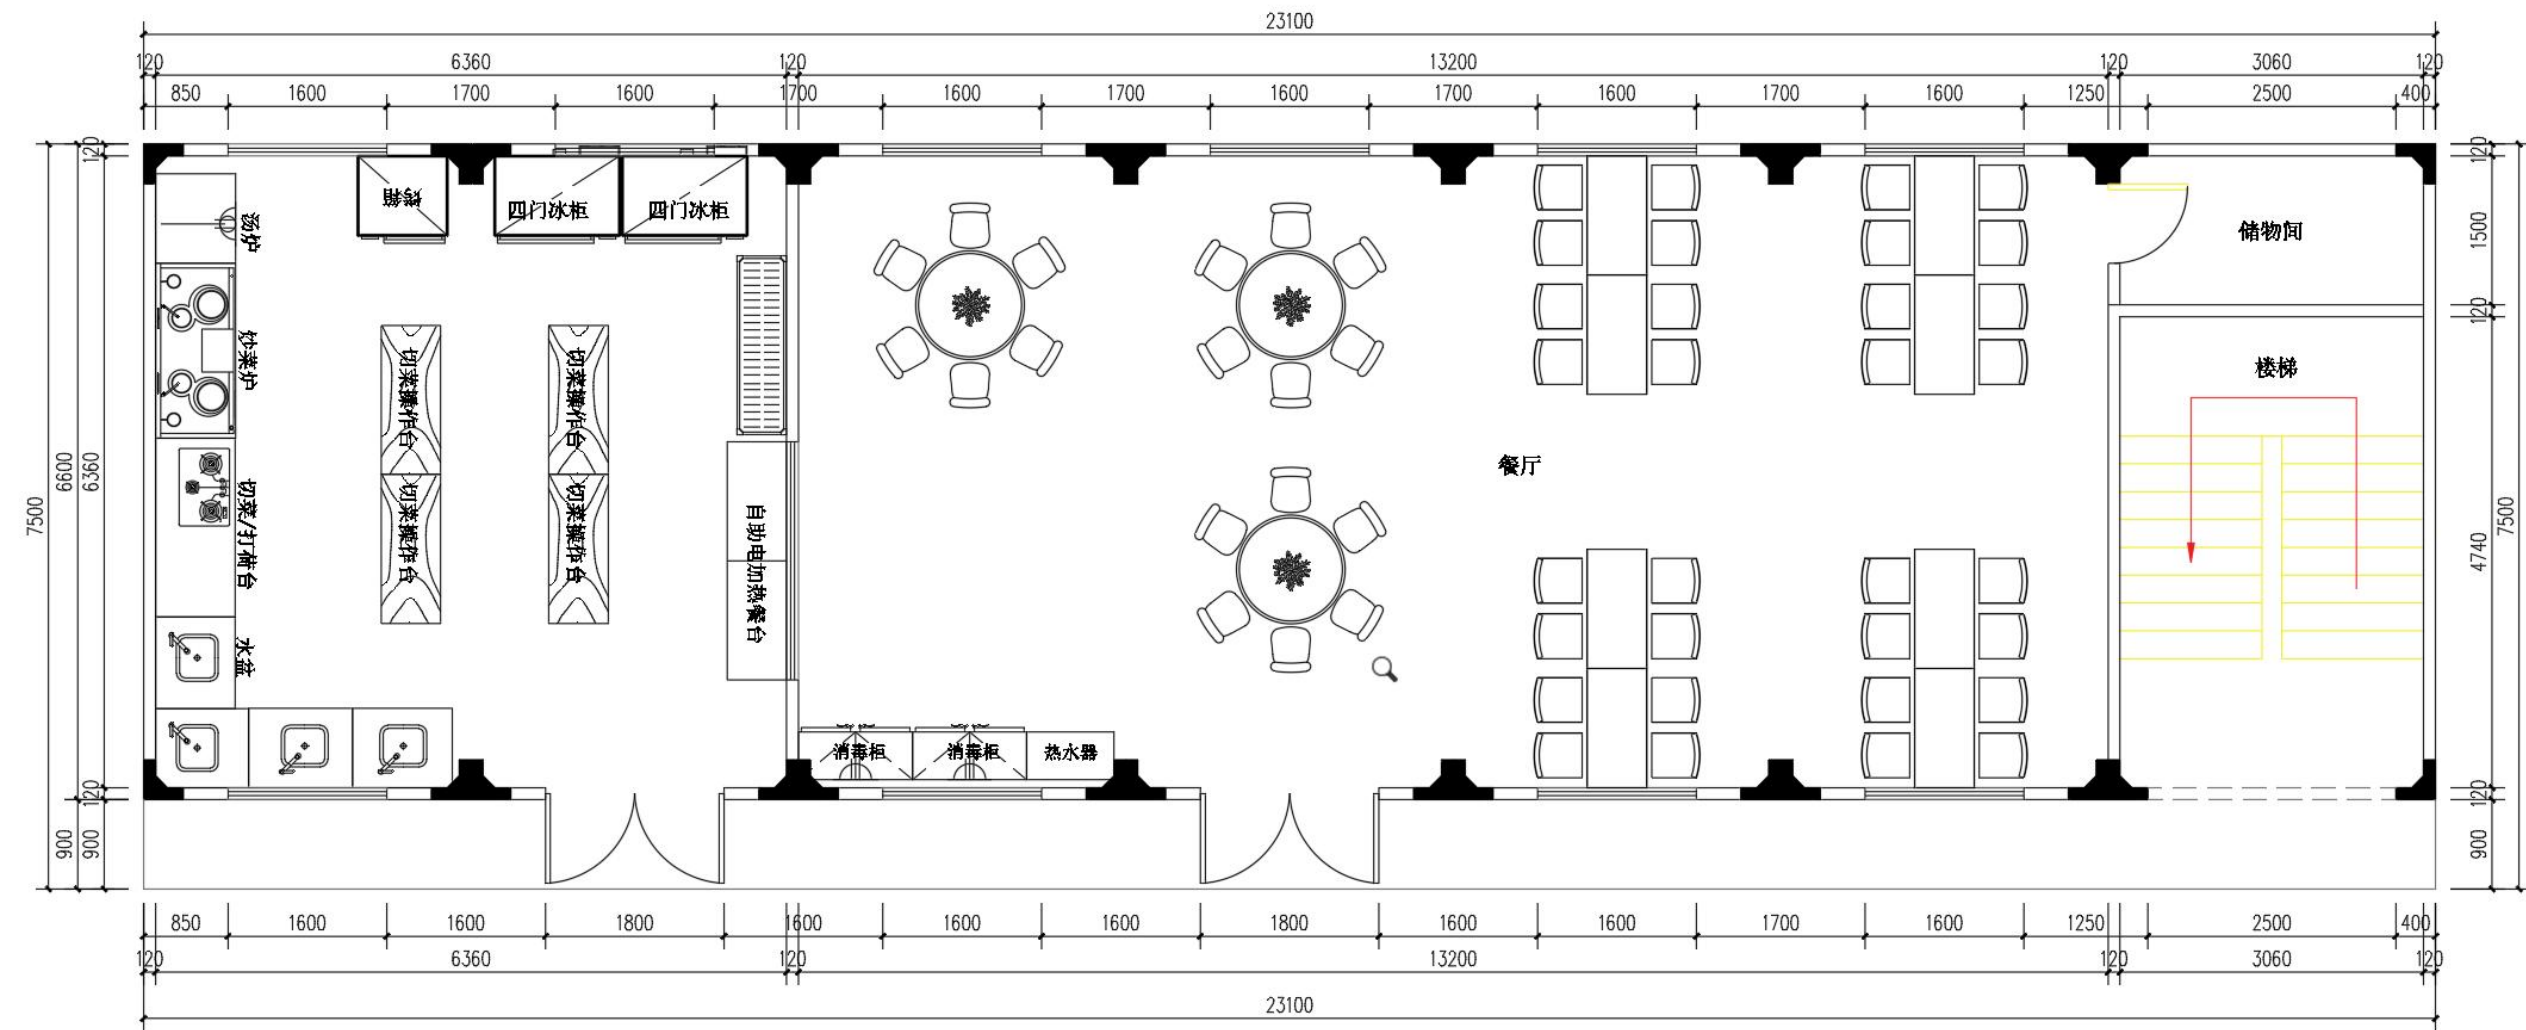

为全面保障交通管理支队海棠大队的日常就餐服务需求，完善后勤配套功能，提升就餐环境品质，本次针对大队食堂开展专项定制化设计。方案整体可同时满足约70人集中就餐使用。

建筑结构材质：

建筑主体采用装配式混凝土拼接结构建造，建筑属性为临时建筑，兼具施工周期短、结构稳固、绿色环保、可灵活拆装的特点，能够快速落地并投入常态化使用。

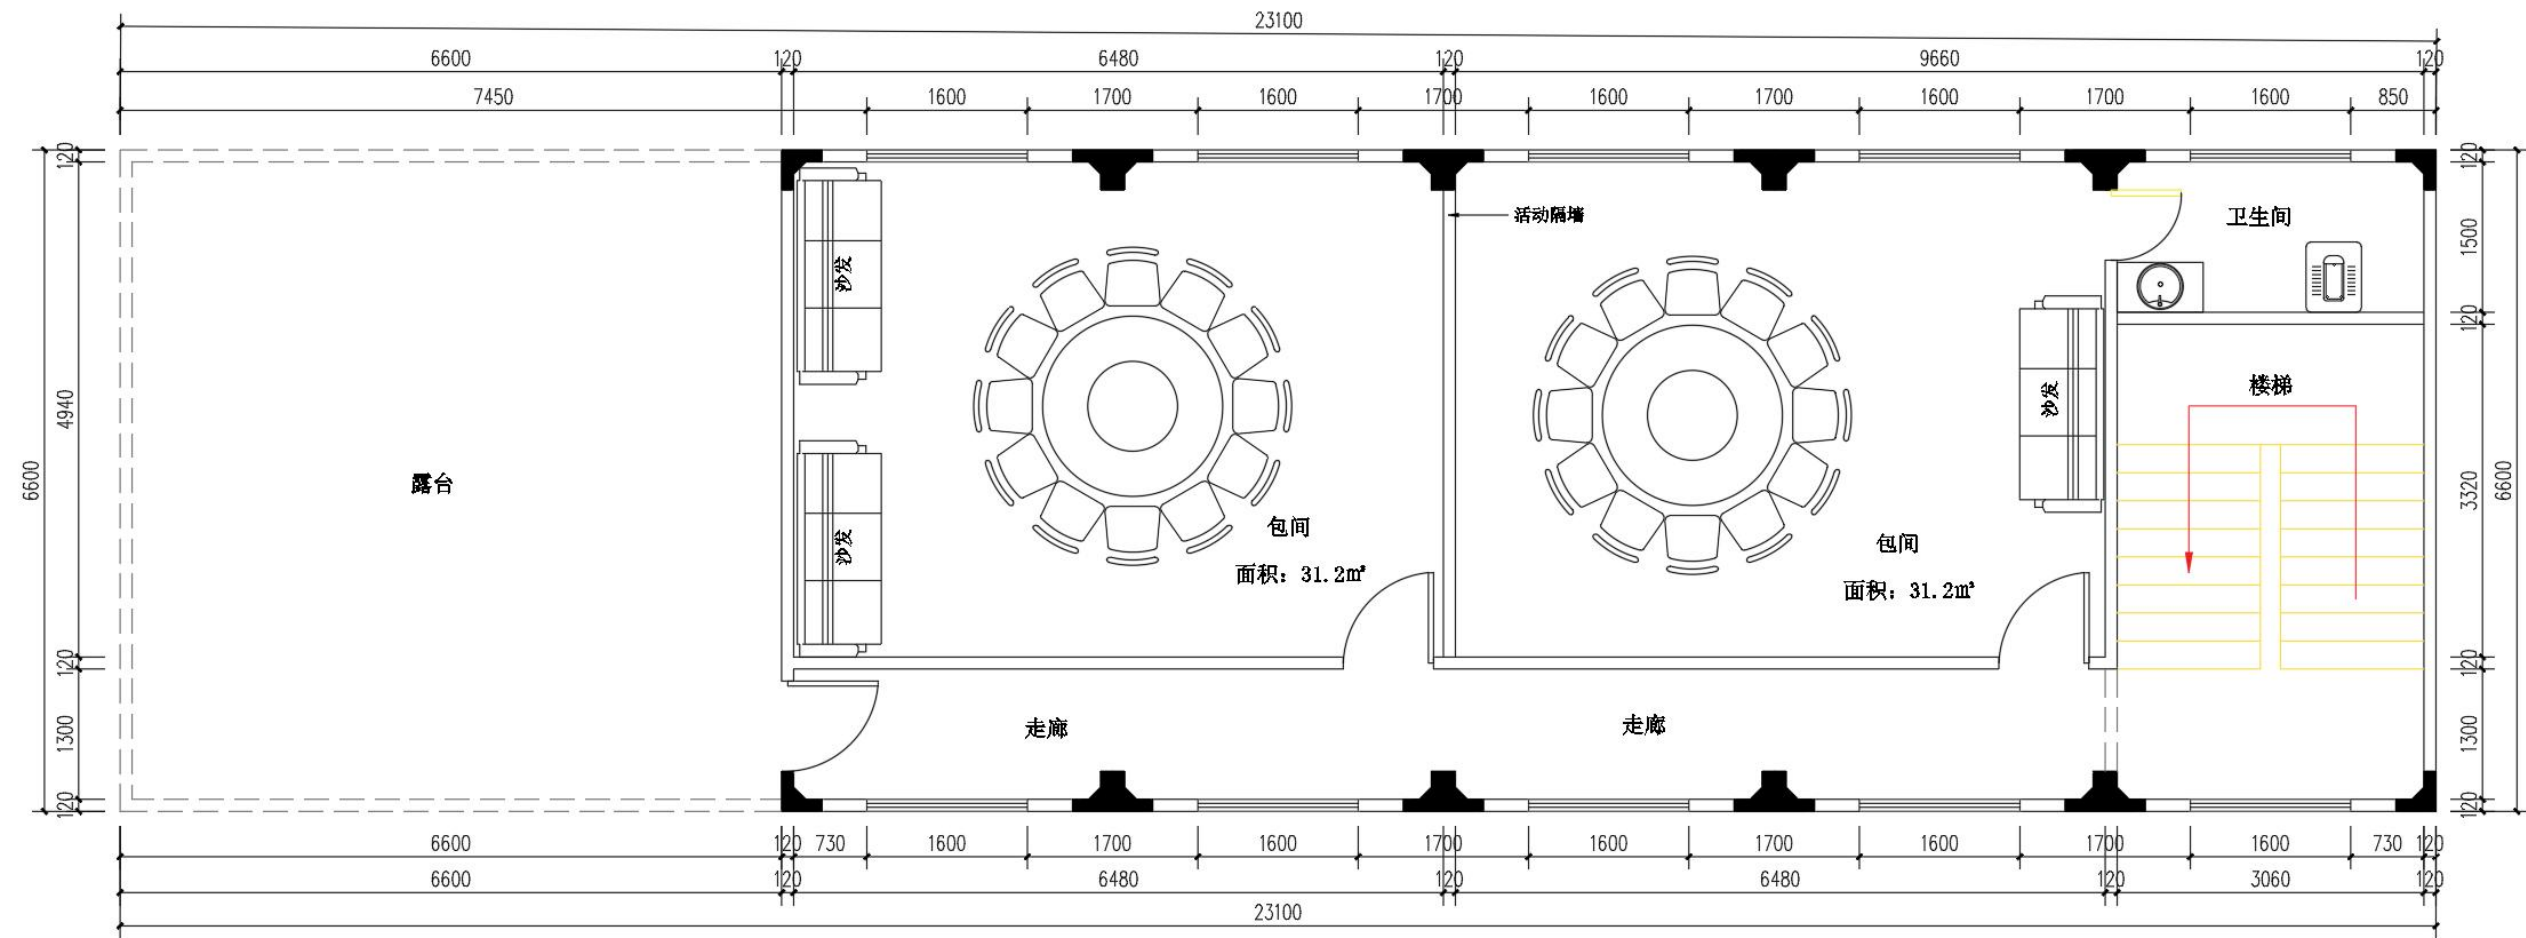

双层建筑布局：

本方案总占地面积约164.8m<sup>2</sup>，采用竖向分层的空间规划思路，能够有效节约场地占地面积，更适配用地相对紧凑的建设条件。一层设置为厨房操作区与公共就餐大厅，承载日常主要的就餐服务与后厨加工功能，动线集中高效；二层整体规划为餐厅包厢区域，空间相对独立，私密性更强，可兼顾公务接待用餐、小型会议就餐等特殊场景。双层布局实现了公共就餐与私密用餐的功能分层，空间利用率更高，功能分区更为明确。

| 结构设计总说明                                                                                                                                      |  |  |  |  |  |  |  |  |  |
|----------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|--|--|--|
| 一. 工程概况和总则                                                                                                                                   |  |  |  |  |  |  |  |  |  |
| 1. 本工程地下0 层,地上 1 层, 建筑物高度(室外地面至主要屋面板板顶): 3.100 m。设计标高±0.000现场确定。                                                                             |  |  |  |  |  |  |  |  |  |
| 2. 上部结构体系: 预制钢筋混凝土剪力墙结构。                                                                                                                     |  |  |  |  |  |  |  |  |  |
| 3. 本工程在设计考虑的环境类别的结构设计合理使用年限为 30年。                                                                                                            |  |  |  |  |  |  |  |  |  |
| 4. 计量单位(除注明外): 1)长度: mm; 2)角度: 度; 3)标高: m; 4)强度: N/mm²。                                                                                      |  |  |  |  |  |  |  |  |  |
| 5. 本建筑物应按建筑图中注明的使用功能, 未经技术鉴定或设计许可, 不得改变结构的用途和使用环境。                                                                                           |  |  |  |  |  |  |  |  |  |
| 6. 凡预留洞、预埋件应严格按照结构图并配合其他工种图纸进行施工, 未经结构专业许可, 严禁擅自留洞或事后凿洞。                                                                                     |  |  |  |  |  |  |  |  |  |
| 7. 结构施工图中除特别注明外, 均以本总说明为准。                                                                                                                   |  |  |  |  |  |  |  |  |  |
| 8. 本工程各楼层梁及屋面梁采用“平法表示”, 其制图规则详<<混凝土结构施工图平面整体表示方法制图规则和构造详图>>图集编号为 16G101-1                                                                    |  |  |  |  |  |  |  |  |  |
| 9. 本总说明未详尽处, 请遵照现行国家有关规范与规程规定施工。                                                                                                             |  |  |  |  |  |  |  |  |  |
| 二. 设计依据:                                                                                                                                     |  |  |  |  |  |  |  |  |  |
| 1. 本工程设计计算所采用的计算程序:                                                                                                                          |  |  |  |  |  |  |  |  |  |
| (1). 采用“中国建筑科学研究院PKPM SAT-8-V3.1.6版本”进行结构整体分析。                                                                                               |  |  |  |  |  |  |  |  |  |
| (2). 采用“中国建筑科学研究院PKPM JC-CAD-V3.1.6版本”进行基础计算。                                                                                                |  |  |  |  |  |  |  |  |  |
| 2. 采用中华人民共和国现行国家标准规范和规程进行设计, 主要有:                                                                                                            |  |  |  |  |  |  |  |  |  |
| 建筑结构荷载规范 GB50009-2012; 混凝土结构设计规范 GB50010-2010                                                                                                |  |  |  |  |  |  |  |  |  |
| 建筑抗震设计规范 GB50011-2010 (2016版);                                                                                                               |  |  |  |  |  |  |  |  |  |
| 砌体结构设计规范 GB50003-2011 ; 建筑地基基础设计规范 GB50007-2002                                                                                              |  |  |  |  |  |  |  |  |  |
| 3. 岩土工程勘察报告                                                                                                                                  |  |  |  |  |  |  |  |  |  |
| 4. 本工程的混凝土结构的环境类别: 室内正常环境为一类, 室内潮湿、露天及与水土直接接触部分为二类a。                                                                                         |  |  |  |  |  |  |  |  |  |
| 5. 建筑抗震设防类别为丙类, 建筑结构安全等级为二级, 所在地区的抗震设防烈度为 6 度, 按 6 度构造设防设计基本地震加速度 0.05 g, 设计地震第一组; 特征周期T <sub>g</sub> =0.35 sec, 建筑结构的阻尼比取0.05; 框架抗震等级为 四 级, |  |  |  |  |  |  |  |  |  |
| 6. 50年一遇的基本风压: 0.85 kN/m², 地面粗糙度: B 类, 风载体型系数: 1.3                                                                                           |  |  |  |  |  |  |  |  |  |
| 7. 楼面和屋面活荷载: 按<<建筑结构荷载规范>> GB50009-2012取值,                                                                                                   |  |  |  |  |  |  |  |  |  |
| 如下表所示: 楼层房间应按照建筑图中注明内容使用, 不得任意更改使用用途, 不得在楼层梁和板上增设建筑图中未标注的隔墙。                                                                                 |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
|                                                                                                                                              |  |  |  |  |  |  |  |  |  |
